ConcernCenter

Connecting Concerns with Solutions

ConcernCenter creates fully customized, user-focused resource directories for community organizations, businesses, colleges and universities, K12s, government agencies and more.

We create customized resource directories for:

K-12 Districts

Colleges and Universities

Healthcare

Veteran Services

Government Agencies

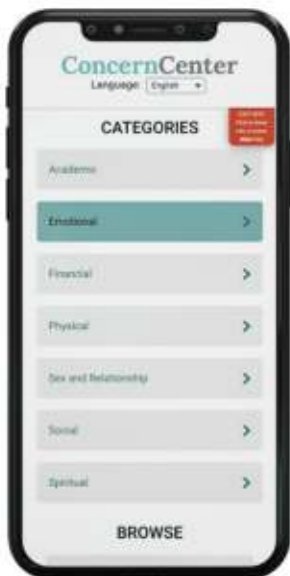

Community Based Organizations

The value of ConcernCenter:

"The value of creating a customized resource directory includes less user frustration, consistently accurate resource information, concerns directed to the right place the first time, and improved awareness of available resources."

Bard

Karen L., Ph.D.

Assistant to the Vice President, SUNY Brockport

"ConcernCenter... eliminates barriers that prevent students from arriving at a resource by connecting the dots for them."

Trevor J.

President & Founder, Bikers Against Domestic Violence

"I was recently told about your ConcernCenter site in the state of Utah and it's quite possibly the greatest thing I have ever seen. We have been trying to build a list of organizations in the state and what services they offer - then I was told about your site! Amazing!"

Geri M.

Student Care Manager, University of Louisville

"Our students use of ConcernCenter increased by 57% this Spring semester compared to last Spring."
