

## ABOUT ERIN:

Erin Halligan-Avery established the CARE Network at the University of Rochester in 2011 which became a nationally recognized model for identifying and supporting students of concern. Erin is a board member of the National Association for Behavioral Intervention & Threat Assessment and consults privately for organizations at various stages of their work in behavioral intervention. Erin is currently the President and Founder of a company called ConcernCenter, Inc. a software platform that helps students find mental health resources simply by identifying their concern.
